

**You wouldn't let them step onto the field with cut-rate protection.
Why would you step into your classroom
without first-class protection of your own?**

What OEA Delivers

- **Excellent, dependable legal services.** Members of the Oklahoma Education Association receive excellent services 24/7, provided by OEA attorneys so skilled they have written some of Oklahoma's education statutes. Our lawyers are there when you call.
- **Support for educators walking out for students and public education.** OEA led the way in calling for the walkout, facilitating and funding its implementation, and negotiating its successful results. Other organizations opposed the walkout and oppose collective action. OEA *is* collective action. We stand strong together.
- **Leadership at the Capitol that benefits educators, support professionals, and retirees.** OEA leads the state in the fight for pay raises, protecting benefits, and passing education policy that helps our students. OEA members help elect leaders who support public education at every level of government.
- **Association leadership of the highest standard.** You, as an OEA member, elect OEA leaders — from your local association to your state board to the national organization. We are a democratic, ethical association led by Oklahoma educators. We aren't run by a family or insiders. We aren't a business run for profit. OEA members *are* the association.

**Your career matters.
Don't settle for an imitation.**
