SECTION 8 - REDUCTION IN FORCE

A. General

1. Reasons for a Reduction in Force. Any teacher in the district may be non-reemployed for the following fiscal year when the board decides that due to (a) a financial necessity or (b) a program change or (c) a decline in enrollment or (d) other business inevitability as determined by the board, a reduction in the teaching staff for the following fiscal year is necessary.
2. Definitions. For the purpose of this section, the following terms have the stated meanings:
 - a. "Financial necessity" means a reduction in the District's financial resources that in the sole judgment of the board of education will result in a reduction in the District's current or future operating budget.
 - b. "Program change" means any elimination, curtailment or reorganization of a curricular instructional offering, program or school operation or a reorganization or closing of a school or a consolidation of two or more individual schools or districts.
 - c. "Declining enrollment" means a decrease in the District's total enrollment or enrollment in a particular program or curricular/instructional offering which in the sole judgment of the board of education may adversely affect the District's current or future funding and/or the necessity of maintaining certain current or future class sections or curricular/instructional offerings.

In the event it becomes necessary to reduce the number of certified personnel, the reduction in force (RIF) shall be accomplished first by attrition or by early retirement, if the Board decides to authorize early retirement.

B. If attrition and/or early retirement, if authorized, fail to accomplish the necessary reduction, the following procedures take effect:

1. Probationary teachers shall be terminated first.
2. A career teacher whose evaluations indicate effective teaching competence may not be dismissed while a probationary teacher is retained in a position, which the career teacher is qualified by certification to fill.
3. If a career teacher whose evaluations indicate effective teaching competence is

qualified for certification in a position held by a probationary teacher but does not have the necessary certification, such career teacher must apply for the necessary certification within fifteen (15) days after being informed that the probationary teacher may be retained, or the career teacher shall be deemed to have refused the offer of continued employment with the district and shall be terminated. Such application for certification with the State Department of Education is to be made through the Superintendent's office.

4. In the event that two or more career teachers with equal number of years experience in the Healdton Public Schools are eligible for the same position, the evaluation scores for the current and prior years shall be considered in the selection process.

C. "Bumping Rights"

1. Only those teachers who have an average three year ranking that falls at the effective rating of 2.80 or above will be given bumping rights. If three years of rankings are not available, the district will use an average of available years. In order to bump, a teacher must be certified in the position they seek to move into and must meet all state and federal requirements necessary to hold that position.
2. In the event a teacher eliminated through RIF is certified to hold a position other than the one being eliminated, said teacher may bump another teacher in that position, as long as the teacher has seniority over that person and has an average composite ranking score that is greater than the other teacher as measured to the nearest hundredth of a decimal point.
3. If the composite ratings of the teachers in the affected positions are identical then the following, in this order, shall control bumping:
 - a. Seniority in the District.
 - b. The number of certifications held.
 - c. Total years of teaching experience.

D. Criteria for Non-reemployment of Teachers in Affected Positions.

1. Once a determination has been made as to which positions should be eliminated then the primary basis that will be used in determining which teachers to retain in the affected position(s) will be the composite evaluation rating of the teachers holding such positions as measured (to the nearest hundredth of a decimal point) by the District's Teacher and Leader Effectiveness Evaluation System (TLE) for each year in which the TLE has been in effect. If the composite ratings of the

teachers in the affected positions are identical then the following, in this order, shall control:

- a. Seniority in the District determined by consecutive years.
- b. The number of certifications held.
- c. Total years of teaching experience.

E. Recall

1. Career and probationary teachers who are released because of reduction in force will have priority for one (1) year after the reduction date in filling vacancies for which they are certified and qualified, and have teaching experience of at least two (2) semesters or continuing education of at least five (5) credit hours within the last five (5) years, or seventy-five (75) hours staff development points.
2. For one school year after the effective date of non-reemployment due to a reduction in force, the board of education shall not fill positions eliminated through reduction in force without first offering such positions to the non-reemployed and eligible teachers. In order to be an "eligible teacher", for recall, the teacher, at the time of the reduction in force, must have had an overall composite evaluation rating, for the time period used, of at least 2.80 on a scale of 5.00 and be certified and qualified to teach in the open position. Recall shall be in the reverse order of the reduction in force. In the event one or more teachers eligible for recall are equal in all criteria used in the reduction procedure, the superintendent / superintendent designee shall have authority to select the teacher believed to best fit the needs of the district.
3. The offer of reemployment shall be made personally and by certified mail, return receipt requested, and the teacher shall be notified in such notice that if the teacher wishes to accept, the teacher must do so in writing within five (5) calendar days of his receipt of notice. It is the responsibility of the teacher to keep full, accurate and current mailing addresses / phone numbers up-to-date with the Superintendent's Office of the District. Failure to receive acceptance within five (5) calendar days or rejection of the offer of reemployment eliminates all reemployment rights of the teacher.
4. A career teacher who has been non-reemployed and who is then reemployed within one school year shall be reinstated as a career teacher. A probationary teacher who is non-reemployed but is then reemployed within one school year

shall be given credit for the time already served as a probationary teacher for the purpose of determining eligibility for career teacher status. Reinstated teachers shall be returned to former or comparable positions and shall retain all rights under this contract and state law including, but not limited to: salary, placement, tenure, and leaves.
