the 1990s, the number of people in the world who are illiterate has increased from 1.2 billion to 1.5 billion.

There are many reasons for this. One is that the population of the world is growing so fast that the number of people who are illiterate is increasing. Another reason is that the quality of education is so poor that many people who are literate are unable to read and write. A third reason is that many people who are literate are unable to use their skills in a way that is useful to them.

There are many ways to improve literacy. One way is to provide more schools and teachers. Another way is to improve the quality of education. A third way is to provide more opportunities for people to use their skills in a way that is useful to them.

B. The Board hereby recognizes the Association as the exclusive bargaining agent for the bargaining unit consisting of all employees who are required by the position in which they are employed to be licensed or certified as teachers and who do not hold formal supervisory authority with respect to other employees of the district, hereafter referred to as "Teachers". The Association will continue as bargaining agent until such time as a majority of the professional educators petition the Board requesting a change of representation. (1994)

C. Any teacher who desires not to be represented by the Association may so state in writing to the Board. The Board may not grant greater or lesser salary and/or benefits to Teachers who choose not to be represented by the Association. (1994)

D. The Board of Education and the Association agree to negotiate in good faith on wages, hours, fringe benefits and conditions of employment. (2003)

SECTION 2: Method

The Board and the Association will have two options on the method of negotiation. An informal meeting consisting of the members of the Board team and Association team shall determine which option shall be used.

Option 1: traditional negotiation as outlined by section 4

Option 2: collaborative negotiation as outlined by section 5
(1996)

SECTION 3: General Procedures

A. Each party shall provide upon request available information regarding negotiations. (1993)

B. During negotiations, releases to news media shall be by mutual agreement only.

C. The impasse procedure shall be in accordance with applicable mandatory state statutes. The following is a statement of the provisions of state statutes applicable to the impasse procedure in effect at the time of this agreement's acceptance by the parties. In the event these statutory provisions are amended or repealed, the resulting mandatory language contained in the statute for resolving impasses shall be substituted. Time limits set forth herein may be extended by mutual agreement of the parties. (1993)

1. If negotiations are not successfully concluded by the first day that school shall actually be in session and instruction offered, impasse shall exist. At any earlier time, either party may declare impasse. Upon reaching impasse, the items causing the impasse shall be referred to a three-member (3) committee. This committee shall consist of:

- a. One member who shall be selected by the representatives of the Association within five (5) calendar days after the reaching of impasse;
- b. One member who shall be selected by the Board within five (5) calendar days after the reaching of impasse; and
- c. One member who shall serve as chairperson of the committee shall be selected within fifteen (15) days after receiving a list of five (5) potential fact-finders from the State Superintendent or designee. The Declaration of Impasse shall be in the form of a letter sent by certified mail to the State Superintendent, signed by the local district Superintendent and a representative from the bargaining organization. Mailing addresses for both parties shall be included. The list of five (5) names, selected at random, will be provided within ten (10) days of being notified that a fact-finder is needed. (2001)

2. Within five (5) days after the selection of the chairperson, the representatives who have been negotiating for the Board and for the Association shall meet to exchange written language on each item at impasse. The exchanged documents shall also be furnished by each party to the chairperson and other members of the committee.

3. The chairperson shall convene the committee for fact-finding. This committee shall meet with the representatives of both parties. Within twenty (20) days after the chairperson is selected, the committee shall present written recommendations to the Board and to the Association.

4. If either party decides it must reject one or more of the committee's recommendations, said party must, within seven (7) days after the committee has presented its recommendations, request a meeting of the

representatives who have been negotiating for the Board and the Association. The parties shall meet within seven (7) days of the request unless both parties deem it unnecessary. At such meeting, the representatives shall exchange written statements expressing each party's rationale for rejecting each recommendation found unacceptable and shall attempt to clarify any remaining differences. The representatives shall then resume good faith effort to resolve the remaining differences; provided, after fourteen (14) days after the exchange of the written statements, either party may discontinue such effort.

5. The Board shall file a copy of the fact-finding report with the office of the State Superintendent of Public Instruction. If the effort to resolve differences is successful, the parties shall draft a written agreement and present the agreement to both parties for ratification, and such agreement shall also be forwarded to the State Superintendent of Public Instruction. If the effort to resolve differences is unsuccessful, the Board shall forward to the State Superintendent of Public Instruction in writing its final disposition of the negotiations impasse process within thirty (30) days of the effective date of implementation.

the 1990s, the number of people in the world who are living in poverty has increased from 1.2 billion to 1.6 billion (World Bank 2000).

There are a number of reasons for this increase in poverty. One of the main reasons is the rapid population growth in the developing world. The population of the world is expected to reach 6.5 billion by the year 2025, with the majority of the increase occurring in the developing world (United Nations 2000). This rapid population growth has led to a corresponding increase in the demand for food and other basic necessities, which has in turn led to a corresponding increase in the price of these goods. This increase in the price of basic necessities has led to a corresponding increase in the number of people who are unable to afford these goods, and hence, an increase in poverty.

Another reason for the increase in poverty is the rapid technological change in the developed world. The rapid technological change in the developed world has led to a corresponding increase in the demand for skilled labour, which has in turn led to a corresponding increase in the wage rate for skilled labour. This increase in the wage rate for skilled labour has led to a corresponding increase in the number of people who are unable to find work, and hence, an increase in poverty.

A third reason for the increase in poverty is the rapid technological change in the developing world. The rapid technological change in the developing world has led to a corresponding increase in the demand for skilled labour, which has in turn led to a corresponding increase in the wage rate for skilled labour. This increase in the wage rate for skilled labour has led to a corresponding increase in the number of people who are unable to find work, and hence, an increase in poverty.

A fourth reason for the increase in poverty is the rapid technological change in the developing world. The rapid technological change in the developing world has led to a corresponding increase in the demand for skilled labour, which has in turn led to a corresponding increase in the wage rate for skilled labour. This increase in the wage rate for skilled labour has led to a corresponding increase in the number of people who are unable to find work, and hence, an increase in poverty.

A fifth reason for the increase in poverty is the rapid technological change in the developing world. The rapid technological change in the developing world has led to a corresponding increase in the demand for skilled labour, which has in turn led to a corresponding increase in the wage rate for skilled labour. This increase in the wage rate for skilled labour has led to a corresponding increase in the number of people who are unable to find work, and hence, an increase in poverty.

A sixth reason for the increase in poverty is the rapid technological change in the developing world. The rapid technological change in the developing world has led to a corresponding increase in the demand for skilled labour, which has in turn led to a corresponding increase in the wage rate for skilled labour. This increase in the wage rate for skilled labour has led to a corresponding increase in the number of people who are unable to find work, and hence, an increase in poverty.

A seventh reason for the increase in poverty is the rapid technological change in the developing world. The rapid technological change in the developing world has led to a corresponding increase in the demand for skilled labour, which has in turn led to a corresponding increase in the wage rate for skilled labour. This increase in the wage rate for skilled labour has led to a corresponding increase in the number of people who are unable to find work, and hence, an increase in poverty.

the 1990s, the number of people in the world who are under 15 years of age has increased from 1.1 billion to 1.3 billion. The number of people aged 65 and over has increased from 200 million to 300 million. The number of people aged 75 and over has increased from 50 million to 70 million.
