Opposition to using taxpayer dollars to fund private school tuition: (Rural/urban/suburban voters)

Do you favor or oppose school vouchers, which allow parents to use taxpayer dollars to pay some of the cost of sending their child to a private school?

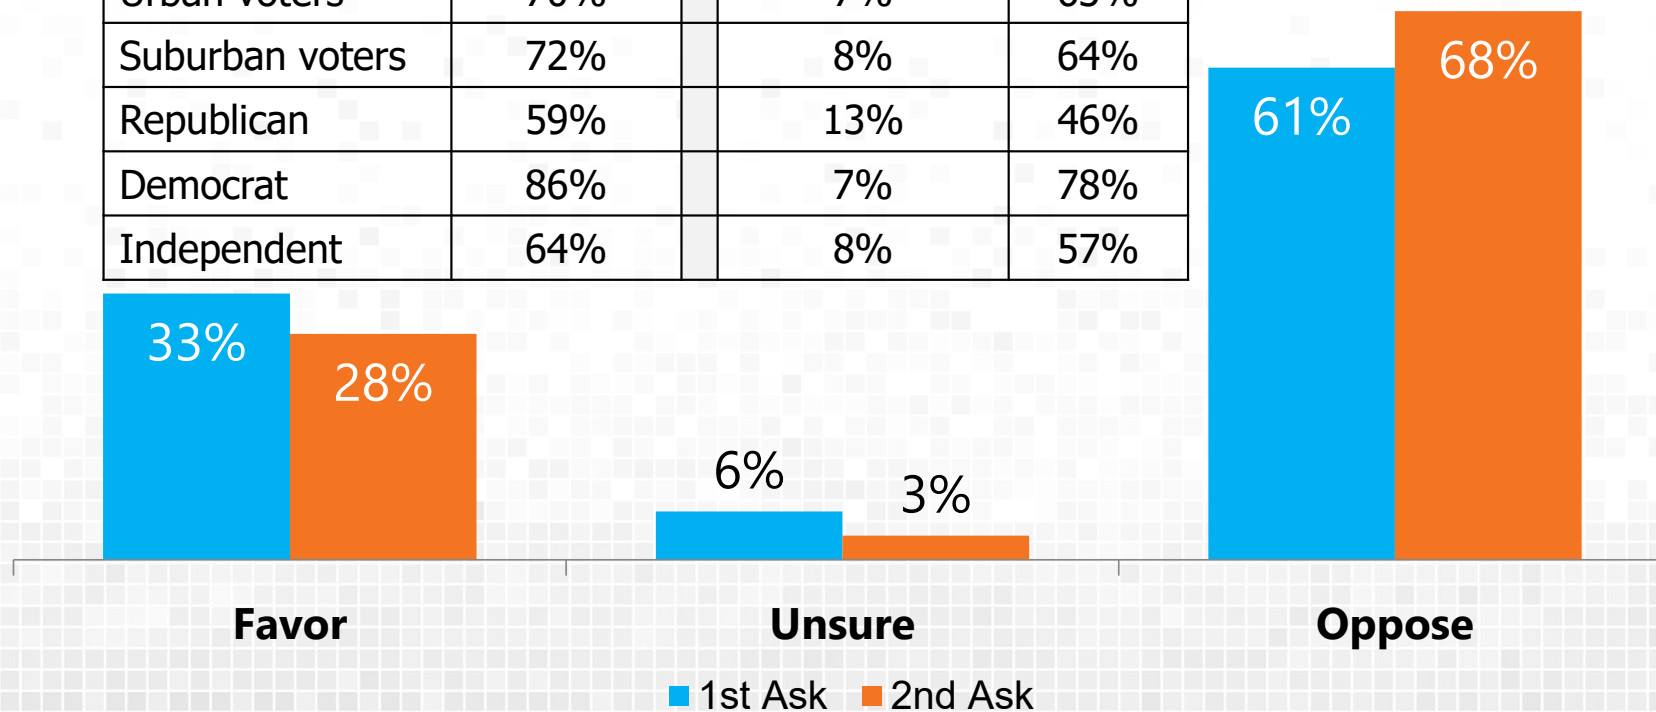

Now I would like to read you a list of statements about using taxpayer dollars to fund private education. Please listen and tell me, for each one, whether knowing about this statement would make you more likely or less likely to support using taxpayer dollars to fund private school tuition.

- These voucher programs mean there is less money available to maintain and improve public schools.
- Private schools are not required to follow the student testing programs or the teacher accountability programs like Oklahoma public schools.
- While public schools are available in every county in the state, these vouchers can only be used in schools in about one-third of the state.

After responding to messages on the previous slide, voters were asked again, “Do you favor or oppose using taxpayer dollars to fund private school tuition?”
